

Lower impact of certain types of disasters on daily life

Some participants felt that some types of disasters had little impact on their daily lives and, therefore, they did not see them as a particular risk, for example, heatwaves.

Applicable to:

Stakeholders: [Worldviews](#), [Attitudes toward environmental issues](#)

Disaster Phases: [Prevention](#), [Preparedness](#)

Types of Actors Concerned: [Healthcare and emergency services](#), [Local authorities](#)

Hazards: [Natural hazards](#), [Man-made non-intentional hazards or emergency situations](#)

Recommendations:

- [Foster the adoption of a culture of disaster prevention and resilience by informing and motivating citizens to take action](#)
