

## Lessening impact of a disaster over time

For some participants the impact of a disaster was seen as being forgotten over time, potentially due to the frequency of the disaster impacting upon the awareness of risk.

**Applicable to:**

Stakeholders: [Worldviews](#)

Disaster Phases: [Prevention](#), [Preparedness](#)

Hazards: [Natural hazards](#), [Man-made non-intentional hazards or emergency situations](#), [Man-made intentional hazards](#)

**Recommendations:**

- [Develop risk assessments methodologies, which consider cultural factors, the manner in which people cognitively process information and which employ a gender perspective](#)
