

Having a sense of community as a strength in responding to a disaster

At local community level, a number of participants felt that having a 'sense of community' was a major strength in responding to disasters, and if there was a disaster people would help each other.

Applicable to:

Stakeholders: [Social networks](#), [Norms/values](#)

Disaster Phases: [Response](#), [Recovery](#)

Hazards: [Natural hazards](#), [Man-made non-intentional hazards or emergency situations](#), [Man-made intentional hazards](#)

Recommendations:

- [Foster the adoption of a culture of disaster prevention and resilience by informing and motivating citizens to take action](#)
