

A sense of solidarity as a cultural trait that may be incorporated in formal guidelines for disaster response

The participants revealed a strong sense of solidarity with others and an explicit hands-on approach, construing both these traits as a specific Maltese “culture to help”. These aspects could be embedded as shared values in behavioural guidelines for disaster situations.

Applicable to:

Disaster Phases: [Preparedness](#), [Response](#), [Recovery](#)

Types of Actors Concerned: [Local authorities](#), [Government](#)

Hazards: [Natural hazards](#), [Man-made non-intentional hazards or emergency situations](#), [Man-made intentional hazards](#)
