

Communicating risks to elderly individuals to enable evacuation

Elderly people would require greater efforts for clarification in a disaster situation, and that they would not want to leave their homes because it is seen as all they have.

Applicable to:

Stakeholders: [Socio-economic status](#)

Disaster Phases: [Response](#)

Types of Actors Concerned: [National civil protection body](#), [Local authorities](#), [Law enforcement agencies](#), [Healthcare and emergency services](#)

Hazards: [Natural hazards](#), [Man-made non-intentional hazards or emergency situations](#), [Man-made intentional hazards](#)

Recommendations:

- [Consider vulnerable groups when designing and implementing disaster response measures](#)
