

Special procedures for children during response and recovery phases

Special procedures for children are included in the “frail and vulnerable people” procedure set. An example of this is hospitals providing specialist medical support during the response and recovery phase of disasters. Other measures directed at supporting children may include actions addressing child poverty that may emerge in the aftermath of a disaster.

Applicable to:

Stakeholders: [Age-related roles](#), [Socio-economic status](#)

Disaster Phases: [Response](#), [Recovery](#)

Types of Actors Concerned: [Healthcare and emergency services](#)

Hazards: [Natural hazards](#), [Man-made non-intentional hazards or emergency situations](#), [Man-made intentional hazards](#)

Recommendations:

- [Consider vulnerable groups when designing and implementing disaster response measures](#)
