

Disaster preparedness as the responsibility of national and local authorities

Long-term disaster preparedness was seen by Romanian citizens (see source document for full description of research carried out amongst residents in Bucharest) as primarily being a responsibility for national and local authorities in ensuring that the environment and infrastructure are able to withstand disasters.

Applicable to:

Stakeholders: [Attitudes toward authorities](#)

Disaster Phases: [Preparedness](#)

Types of Actors Concerned: [National civil protection body](#), [Local authorities](#), [Government](#)

Hazards: [Natural hazards](#), [Man-made non-intentional hazards or emergency situations](#), [Man-made intentional hazards](#)

Recommendations:

- [Social media can be a useful alternative communication channel in all stages of disaster management](#)
- [Use cultural factors to improve the effectiveness of disaster communication](#)
