

## Bulgarian Plan for Disaster Protection language adaptations

The press office of the Ministry of Interior publishes timely information about each disaster on its website and prepares a notice for the national media. The National Plan for Disaster Protection provides that messages be broadcasted in English to notify foreign residents about the disaster situation efficiently. Messages distributed by the Bulgarian National Television, where possible, should be accompanied by sign language/translation.

Note: See source document for full reference.

### Applicable to:

Stakeholders: [Communication](#), [Languages](#)

Disaster Phases: [Preparedness](#), [Response](#)

Types of Actors Concerned: [National civil protection body](#), [Media](#)
