

Ethnically inclusive climates change adaptation strategies

Climate change adaptation strategies need to be ethnically inclusive and cognisant of an upward trend what proportion of the population are migrants and refugees. It is highly likely that genetic adaptation and acclimatization could play a role in differences emerging between cultural groups.

Applicable to:

Stakeholders: [Ethnicity](#)

Disaster Phases: [Response](#)

Types of Actors Concerned: [National research bodies](#)

Hazards: [Natural hazards](#)

Recommendations:

- [Develop guidelines for disaster practitioners that take into consideration the different needs of and approaches to different ethnical groups](#)
- [Use trustworthy, widespread, multi-lingual, culturally appropriate and inclusive means of alerting the target population in case of disasters](#)
